

SAP S/4HANA Compatibility Scope Matrix (Expiration Date: December 31, 2025)

This matrix defines the "compatibility pack" (CP) term licenses which are granted in SAP S/4HANA Cloud Private Edition and on-premise. Parts 1 and 4 are "universal CPs" which apply to all SAP S/4HANA releases. Their usage on productive customer systems (ECC and S/4HANA) can be analyzed with the Readiness Check and the Early Watch Alert report. Parts 2 and 3 show the "limited CPs", which are exclusively valid on the SAP S/4HANA releases 1503/1605/1610 and are therefore irrelevant for most installations. They are also not covered by the Readiness Check, the Early Watch Alert report, and some of the detailed documentation.

Part 1: Compatibility Packs based on an LoB / Industry license					
CP ID	Material Codes	Classical Solutions Name	SAP S/4HANA Compatibility Pack Solutions ^(A)	Type ^(B)	Subcomponent
101	7002928	SAP Payroll Processing for Non-profit Organizations	CP-SAP Payroll Processing for Non-profit Organizations	U	complete solution
102	7009037	SAP EHS Management: product and REACH compliance	CP-SAP EHS Management: product and REACH compliance	U	complete solution - does not contain SAP REACH Compliance, cf. note 2267423
103	7009233	SAP Remote Logistics Management for Oil&Gas	CP-SAP Remote Logistics Management for O&G	U	complete solution
104	7009240a, b	SAP Merchandising for Retail	CP-SAP Merchandising for Retail-U ⁽²⁾	U	AFS Integration; Power Lists; Additional POS Outbound; Sales Forecasting; Replenishment Retail Demand Management Integration; Closed loop BW scenarios Markdown Plan Bonus Buy
105	7009814	SAP Financial Closing cockpit	CP-SAP Financial Closing cockpit	U	complete solution
106	7010164	SAP Payment Engine	CP-SAP Payment Engine	U	complete solution
107	7010170	SAP EHS Management, product safety	CP-SAP EHS Management, product safety	U	complete solution
108	7011057	SAP Bank Communication Management, option for multisystem payment consolidation	CP-SAP Bank Communication Management, option for multisystem payment consolidation	U	complete solution
109	7011091	SAP Common Area Maintenance Expense Recovery	CP-SAP Common Area Maintenance Expense Recovery	U	complete solution
110	7012023	SAP Service Station Retailing for O&G	CP-SAP Service Station Retailing for O&G	U	complete solution
111	7015835	SAP SAP Enterprise Integration for Work Manager mobile app	CP-SAP Enterprise Integration for Work Manager mobile app ⁽²⁾	U	"Mobile AddOn for ERP 6.2"
112	7016033	SAP Tax Classification and Reporting	CP-SAP Tax Classification and Reporting	U	complete solution
113	7016118	SAP Enterprise Integration for Inventory Manager mobile app	CP-SAP Enterprise Integration for Inventory Manager mobile app ⁽²⁾	U	"Mobile AddOn for ERP 6.2"
114	7016733	Asset management for oil & gas	CP-Asset management for oil & gas	U	complete solution
115	7017275	SAP Multiresource Scheduling	CP-SAP Multiresource Scheduling	U	complete solution
116	n/a	merged with CP ID 115			
117	7017373	SAP Payroll Processing	CP-SAP Payroll Processing	U	complete solution
118	7017375	SAP Shared Service Framework, Human Resources	CP-SAP Shared Service Framework, Human Resources	U	complete solution
119	7017517	SAP Equipment and Tools Management for EC&O	CP-SAP Equipment and Tools Management for EC&O	U	complete solution
120	7017524	SAP Educational Services for HER	CP-SAP Educational Services for HER ⁽²⁾	U	Student Lifecycle Management (SLcM)
121	7017545	SAP Capital Yield Tax Mgmt, international version	CP-SAP Capital Yield Tax Mgmt, international version	U	complete solution
122	7017546	SAP Capital Yield Tax Mgmt, version for Germany / Switzerland	CP-SAP Capital Yield Tax Mgmt, version for Germany / Switzerland	U	complete solution
123	7017755	SAP Force Organization & Personnel for D&S	CP-SAP Force Organization & Personnel for D&S	U	complete solution
124	7017756	SAP Force Sustainment for D&S	CP-SAP Force Sustainment for D&S	U	complete solution
125	7018102	budget-based benefits selection	CP-budget-based benefits selection	U	complete solution
126	7018354	SAP Hydrocarbon Supply & Primary Distribution for O&G	CP-SAP Hydrocarbon Supply & Primary Distribution for O&G ⁽²⁾	U	Traders & Schedulers Workbench (TSW); Freight Costs; Transportation & Distribution (TD); Shipment cost processing
127	7018355	SAP Hydrocarbon Management for O&G	CP-SAP Hydrocarbon Management for O&G ⁽²⁾	U	Transportation & Distribution (TD); Shipment cost processing
128	7018508	SAP Receivables Management	CP-SAP Receivables Management	U	complete solution
129	7018774	SAP Configure, Price, and Quote for solution sales configuration, up to 20 units	CP-SAP CPQ for sales configuration	U	complete solution
130	7018775	SAP Configure, Price, and Quote for solution sales configuration, above 20 units			
131	7018943	SAP ERP, add-on for Polish SAF-T regulatory requirements	CP-SAP ERP, add-on for Polish SAF-T regulatory requirements	U	complete solution
132	7019298	SAP ERP HCM component	CP-SAP ERP HCM component	U	complete solution

SAP S/4HANA Compatibility Scope Matrix (Expiration Date: December 31, 2025)

133	7019299	SAP ERP Travel Management component	CP-SAP ERP Travel Management component	U	complete solution
134	7009028	SAP E-Recruiting	CP-SAP E-Recruiting	U	complete solution
135	7002075	SAP Learning Solution	CP-SAP Learning Solution	U	complete solution
136	7003485	SAP Enterprise Learning Environment	CP-SAP Enterprise Learning Environment	U	complete solution
137	7020472	SAP Core HCM Component	CP-SAP Core HCM Component	U	complete solution
138	7020473	SAP Time Tracking Component	CP-SAP Time Tracking Component	U	complete solution
139	ERP_Package	One or more of the following: SAP ERP Foundation Starter, ERP Package, Enterprise Foundation Package, Foundation Starter, ERP_PAC, Category II Named User, mySAP Professional Named User, or Professional Named User.	CP-SAP ERP Foundation Starter ^(C)	U	For details please refer to Part 4 of this document.

(A) SAP S/4HANA Enterprise Management, SAP S/4HANA Enterprise Management for ERP, or SAP S/4HANA Foundation-Promotion is a prerequisite of any SAP S/4HANA Compatibility Pack Solution. Provided Licensee has a license for one of the prerequisites set forth in the preceding sentence, and if Licensee also has a license to a Classical Solution shown under the Classical Solutions column above, they shall automatically also have a license for the corresponding compatibility pack solution shown in the SAP S/4HANA Compatibility Pack Solutions column above, in accordance with the terms of their Agreement referencing this Matrix.

(B) Compatibility Pack Types:

U = Universal. Universal CPs may be used with any release of SAP S/4HANA Enterprise Management, SAP S/4HANA Enterprise Management for ERP, or SAP S/4HANA Foundation-Promotion.

L = Limited. Limited CPs may only be used with releases 1503 and 1605 of SAP S/4HANA Enterprise Management, SAP S/4HANA Enterprise Management for ERP, or SAP S/4HANA Foundation-Promotion.

(C) This CP does not contain all of the functionality of the corresponding Classical Solution. For details please refer to Part 4 of this document.

Part 4: Compatibility Packs based on ERP_Package (core license)

Comp. Pack ID	Component	Subcomponent	Type	Details	Application Component Hierarchy	Relevant Note / Link
401	Non Ferrous Metal Processing	Non Ferrous Metal Processing	U	Modernization of Non-Ferrous Metal with perpetual use rights is available as of SAP S/4HANA 2023 FPS02.	IS-MP-NF	https://me.sap.com/notes/2270403
402	Customer Service (D)	CS-Service Billing and Settlement	U	Billing of service orders Billing of service contracts Settlement of service orders Settlement of service contracts	CS-BS	https://me.sap.com/notes/2962632
403	Customer Service (D)	CS-Service Control	U	Service notification management Service order management Generate service order from sales order item Create quotation from service order	CS-SE	https://me.sap.com/notes/2962632
404	Customer Service (D)	CS-Service Contract Management	U	Service contract management Manage service notifications with reference to service contracts Manage service orders with reference to service contracts	CS-SE	https://me.sap.com/notes/2962632
405	Customer Service (D)	CS-In-House Repair Management	U	CS capabilities for Repair order management	CS-SE	https://me.sap.com/notes/2962632
406	Customer Service (D)	CS-Service Dispatching and Scheduling	U	Scheduling of service orders Capacity requirements planning for service orders Graphical monitor for service orders Interface for external scheduling of service orders	CS-SE	https://me.sap.com/notes/2962632
407	Customer Service (D)	CS-Service Task List and Catalogues	U	Task lists for usage in service orders	CS-SE	https://me.sap.com/notes/2962632
408	Customer Service (D)	CS-Service and Maintenance Plan	U	Maintenance plans for service orders Maintenance plans for service notifications Maintenance plans with reference to service contracts	CS-SE	https://me.sap.com/notes/2962632
409	Customer Service (D)	CS-Technical Assets, Structures, History	U	Installed Base Management	CS-IB	https://me.sap.com/notes/2962632
410	Customer Service (D)	CS-Service Parts Fulfillment	U	Parts planning and fulfillment out of service orders	CS-BS	https://me.sap.com/notes/2962632
411	Customer Service (D)	CS-Service Parts Warehousing	U	Parts warehousing out of service orders	CS-BS	https://me.sap.com/notes/2962632
412	Customer Service (D)	CS-Complaints Management	U	Complaints in CS are handled via service notification management	CS-BS	https://me.sap.com/notes/2962632
413	Customer Service (D)	CS-Service Request Management	U	Service Requests in CS are handled via Service Notification management	CS-BS	https://me.sap.com/notes/2962632
414	HR	HR-Absence Management	U	Optimize absence management for compliance requirements and payroll processes. Define and manage working calendars and vacation allowances for global and localized processes for more than 50 countries in one platform. Use multiple interfaces: employee self-services, manager self-services, and mobile access. Employees can enter absences, attendance, and breaks. Managers can approve attendances and absences. Decision makers can use time management analytics to get workforce data.	PA-BC PY-XX	Further information: https://me.sap.com/notes/2273108
415	HR	HR-Benefits Enrollment and Administration	U	Integration of self-services and payroll for employee benefits, legal compliance, and lower cost. With SAP software, HR organizations can develop and manage employee benefit plans. They can monitor benefits enrollment by checking eligibility. HR staff can improve communication of information to and from benefits providers and review related reports. Managers and employees can access and change their benefits selections through self-service to better serve their own needs. HR staff can maintain legal compliance at lower cost on a single record system integrated with self-services and payroll processes. Integrated processes support all HR administrative tasks - and flexible reporting and analytics provide a fuller view and insight into benefits processes.	PA-BC, PA-PF, PY-XX	https://blogs.sap.com/2019/09/25/sap-human-capital-management-for-sap-s4hana-on-premise-edition-updates-available-in-2022-with-a-technical-co-deployment-in-sap-s4hana/
416	HR	HR-Compensation Management	U	Planning, management, standardization, and analysis of compensation processes. Companies can use on-premise SAP software to plan and customize compensation components, including base pay, bonus payments, and stock options. Budgets can be calculated and assigned. HR and line managers can develop eligibility rules and other performance guidelines. Our software integrates employee performance with other talent management processes, providing a full view of related HR processes while monitoring performance.	PA-BC PY-XX	https://news.sap.com/2018/01/hcm-on-premise-s4hana/

Part 4: Compatibility Packs based on ERP_Package (core license)

Comp. Pack ID	Component	Subcomponent	Type	Details	Application Component Hierarchy	Relevant Note / Link
417	HR	HR-Employee Self-Service	U	Employees controlling their own data, leading to high employee engagement in self-service. Employee self-services in SAP software can improve productivity by automating processes and reducing administrative costs, cycle time, and error rates. By giving employees more control over their own data, organizations can realize a quicker return on investment. Self-services gives employees personalized access to their own HR data, processes, and services. Employees take more responsibility for their jobs and career development. Automation in our self-services software increases data accuracy. Employees can enter, display, and update personal information such as bank information and emergency contacts. HR staff members freed from routine inquiries and data entry can focus on strategic initiatives that contribute to business goals.	PA-BC PY-XX	
418	HR	HR-Goal and Performance Management	U	Plan, manage, analyze, and evaluate employee performance - all on one global platform. Motivate your workforce by aligning them with corporate goals through performance and goals management solutions from SAP. Managers can cascade goals, review employee performance, and identify each employee's development needs with standardized, consistent appraisal and performance processes. Using the solutions, managers can develop employees, calibrate their overall performance, and review potential ratings in a visual grid. Plus, they can integrate those performance ratings with compensation management to support pay for performance - enabling the HR organization to monitor, support, and control performance processes.	PA-BC PY-XX	
419	HR	HR Administration	U	Benefits enrollment administration of talent, process consistency, and legal requirement compliance. Companies can use SAP software to set up standard HR administration systems across the globe with country-specific versions. In our software, HR processes integrate with other business areas on a single, global platform. HR administration tools in our software help companies manage many benefits processes, storing information on employees by date and time. Regional HR organizations can access flexible, localized processes delivered for more than 50 countries. Decision makers can use HR analytics to target workforce information and gain clarity for optimal decision making for benefits.	PA-BC PY-XX	
420	HR	HR-Manager Self-Service	U	Managing employees with an intuitive self-service system with personalized, role-based tools. Manager self-services in SAP software helps increase productivity and reduce operational burdens for HR staff. A role-based user interface helps managers make decisions to execute human capital, financial, and operational management strategies. Our software supports planning, analysis, budgeting, recruitment, compensation, employee development, and cost management processes on any device. Access to automated processes, data, and workflow requests can reduce cycle times and transactional costs. Our software integrates self-services with business intelligence capabilities and aggregates data from all sources. Managers can use this integrated data to make informed decisions regarding corporate strategies and resource management.	PA-BC PY-XX	
421	HR	HR-Recruiting	U	Standardizing and automating recruiting and talent acquisition, from managing requisitions to hiring. Companies can streamline recruiting and talent management globally using flexible, integrated SAP software. Our solution provides insights on candidates for reduced time to hire and quick feedback to candidates. Companies gain a full view of external and internal talent and recruiting processes. Our software includes intelligent screening, filtering, sorting, and ranking. Manager self-services handle requisition requests, candidate feedback, ranking, and selection. Managers assess best-fit candidates in real time using an optional mobile app. They gain insights on staffing in real time with insights-to-action reports. Rapid deployment applications speed execution through predefined configurations.	PA-BC PY-XX	
422	HR	HR-Succession Management	U	Maintain a change-ready organization through succession management. Avoid business disruption by preserving talent continuity for critical positions with SAP solutions for succession management. Our solutions help ensure the availability of skilled successors by enabling you to: - Identify key positions and talent necessary for creating succession plans - Build bench strength and maintain a robust pipeline of talent ready to quickly fill vacancies in key roles - Ensure the right talent is in the right place at the right time to lead and grow the business	PA-BC PY-XX	
423	HR	HR-Talent Assessment	U	Enhance organizational performance - get to know and develop your high-potential talent. Consolidate employee talent profiles for full assessments in a structured, objective approach with the talent assessment solution from SAP. With greater ease and speed, HR professionals and business leaders can prepare, conduct, and follow-up on talent review meetings with a cross-organizational view of up-to-date talent data. As a result, business leaders can make more-informed decisions on talent pool membership, and create and manage succession plans, employee performance and potential ratings.	PA-BC PY-XX	
424	HR	HR-Funds and Position Management (Public Sector)	U	Plan, position, and finance employees according to budget, control, or legal requirements: Provide high visibility and control of personnel related activities and finances. Optimize overall budget view for personnel expenditure to improve analysis of deviations. Guarantee budget availability for payroll and personnel expenses. Improve transparency, timeliness and consistency information to optimize decision making and reduce costs.	PA-PM	
425	FI-TV	Core Travel Management	U	Streamlining the travel management process to control cost and enforce corporate and legal compliance. Approval processes handling relevant data to control travel spend use business workflows in SAP ERP software. Expense receipts and reports can be processed and submitted for reimbursement and integration into accounts payable and cash management processes. Visibility into controlling travel costs improves with sophisticated analytics. Businesses can also support local and legal travel expense requirements through dedicated country versions of the software.	FI-TV	https://me.sap.com/notes/2976262

Part 4: Compatibility Packs based on ERP_Package (core license)

Comp. Pack ID	Component	Subcomponent	Type	Details	Application Component Hierarchy	Relevant Note / Link
426	FI	FI-DataSources in Finance	U	Classic data sources in Finance: new data sources, standard for S/4HANA, are in place and to be used. Availability of data sources (aka BW extractors) is described in SAP note #2500202. Only data sources for FIN applications in compatibility scope will expire. See related entries in this matrix.	FI-CF	https://me.sap.com/notes/2500202
427	EC-PCA	EC-PCA - Classical profit center accounting	U	Provide a superior base for decision making in realtime through integrated revenue and cost accounting. Assign costs, revenues into P&L and balance sheet in realtime to provide the basis for legal as well as internal segment reporting. Record costs and revenues with highest accuracy and by market segment, which can be products and product groups, customers and customer groups, orders, or any combination of these or strategic business units, such as sales organizations or business areas, to calculate the contribution margin for each market segment. Provide speed and transparency of the closing process by means of application integration, process automation, and collaboration functionality - without tremendous efforts of reconciliation and repostings.	CO-OM FI-GL	https://me.sap.com/notes/2993220
428	FI-AA / Group Assets	FI-AA / Group Assets	U	It is not planned to provide an alternative for group assets in Asset Accounting. If you wish to group your assets also in future we recommend building your own solution by introducing respective user fields in asset master.	FI-AA	https://me.sap.com/notes/3014869
429	*deleted*	*deleted*		./.		
430	FI-SL / special ledger	Usage of SAP standard ledgers will expire as outlined in the relevant compatibility scope.	U	Usage of SAP standard ledgers will expire as outlined in the relevant compatibility scope items. Usage of customer-defined ledgers will be supported with limitations. Future technical usage of these ledgers is under discussion.	PSM-FA	
431	Accounting and Financial Close	Schedule Manager	U	SAP Advanced Financial Closing is available as an alternative solution.	CA-GTF-SCM	https://me.sap.com/notes/3003364
432	*deleted*	*deleted*		./.		
433	Finance and Controlling	Reporting/Analytics in Finance and Controlling	U	Report Painter and Report Writer framework will still be available after expiry of compatibility packs. Only usage rights for reports of financial apps in compatibility scope expire. No 1:1 conversion of existing reports to new financial reporting in SAP S/4HANA; new approaches for commitments/incoming sales orders via predictive accounting; new approach for WIP/variances via real-time variances	CO-PA-IS, CO-PC-IS	https://me.sap.com/notes/2349297
434	Consolidation preparation	Consolidation preparation - Closing Operations	U	New solution: S/4HANA Group Reporting.	FI-LC EC-CS	
436	Electronic Invoicing Connector	Electronic Invoicing Connector	U	Currently supported with invoicing for Argentina, Austria, China, Coratia, Denmark, Finland, Kazakhstan, Mexico, Portugal, South Korea, Tuerkey, Ukraine, Russian Federation. Communication regarding alternative to come via SAP Roadmaps	FI-AP-AP	https://blogs.sap.com/2018/04/27/overview-of-sap-edocument-solution/
437	FSCM Biller Direct (Integration: BRIM/FI-CA, FI-AR, FI-AP)	FSCM Biller Direct (Integration: BRIM/FI-CA, FI-AR, FI-AP)	U	With the integration of FSCM Biller Direct, it is possible to offer to end-customers the convenience of receiving invoices, viewing account status, and making payments online as a self service. (BRIM itself is simplified in S/4HANA and not part of the c.p.list.)	FI-CA FI-AR FI-AP	2270384 2270386 2271233
439	Engineering Workbench	Engineering Workbench - Product Development Foundation	U	Modernization of transaction CEWB is delivered with SAP S/4HANA 2023 FPS03. All modernized functionalities are part of perpetual scope.	LO-MD-PPW	https://me.sap.com/notes/2267943
440	Integration to SAP Portfolio and Project Management	Integration to SAP Portfolio and Project Management	U	SAP Portfolio and Project Management is integrated with ERP in various ways. SAP plans to simplify and improve this integration in the way to ease configuration and leverage HANA capabilities. Modernization planned, Communication regarding alternative to come via SAP Road Maps.	PPM-PFM PPM-FIO PPM-PRO	https://me.sap.com/notes/2268020
441	PLM Web UI Engineering Record (D)	PLM Web UI Engineering Record - Product Development Foundation	U	PLM Web UI Engineering Record (ER)" is not strategic in SAP S/4HANA (nor are Engineering Change Request / Engineering Change Order, which are not available in SAP S/4HANA). The strategic alternative is "Change Record". See "Business Impact Note" # 2267918.	PLM-WUI-OBJ PP-PI-MD-MRC	https://me.sap.com/notes/2268043 https://me.sap.com/notes/2704849
442	LIS in EAM	LIS in Enterprise Asset Management - Maintenance Planning and Scheduling	U	The plant maintenance information system is part of the logistics information system LIS. The LIS can be used to evaluate Equipments, Functional Locations, Notifications and Orders. The LIS is intended as an interim solution in Enterprise Asset Mgmt, which can be used until PM analytics in HANA, which will be based on CDS views, has the required scope. Cuurently available: Analytical Fiori apps: Breakdown Analysis, Damage Analysis, Actual Cost Analysis. Available CDS views & BW extractors can be used to replace LIS. Planned: Fiori app for "Planned Maintenance Costs": For further details see SAP Roadmaps.	PM-IS	https://me.sap.com/notes/2267463
443	Classical MRP lists	Classical MRP lists	U	The classical MRP lists are not strategic within SAP S/4HANA but still available. SAP S/4HANA features MRP live, an MRP run optimized for SAP HANA.	PP-MRP	https://me.sap.com/notes/2268085
444	Control Recipes & Control Instructions (D)	Control Recipes & Control Instructions	U	The Control Recipes & Control Instructions functionality has been adapted within SAP S/4HANA: - replacement of monitoring transactions against modern UI (SAP Fiori/SAP UI5) - improvement on used communication technology (currently t-RFC) Details about the regulated industries' coverage on the roadmap of SAP Digital manufacturing Cloud (DMC).	PP-PI-PMA-RCP	https://me.sap.com/notes/2270233
445	*deleted*	*deleted*		Digital Signature functionality is part of the perpetual scope of SAP S/4HANA		

Part 4: Compatibility Packs based on ERP_Package (core license)

Comp. Pack ID	Component	Subcomponent	Type	Details	Application Component Hierarchy	Relevant Note / Link
446	Electronic Batch Record (EBR) (D)	Electronic Batch Record (EBR) - Basic Production Execution	U	EBR is required by customers who work in regulated environments (production of active ingredients, pharmaceuticals, etc). The content of the EBR is stored in optical archives (using SAP ArchiveLink technology). EBR Content is revisited during external audits. <i>The functionality is still available and working in SAP S/4HANA on-premise, but not considered as future technology.</i>	PP-PI-PDO	https://me.sap.com/notes/2270218
447	Electronic Records (D)	Electronic Records - Basic Production Execution	U	Replacement of legacy functionality Electronic Records by successor functionality.	LO-ELR	https://me.sap.com/notes/2268131
448	ERP Line-Balancing and Sequencing	ERP Line-Balancing and Sequencing - Material Requirements Planning	U	The ERP line balancing and sequence planning are not strategic within SAP S/4HANA.	PP-FLW PP-FLW-LDS PP-FLW-SEQ	https://me.sap.com/notes/2268084
449	Flow Manufacturing functionality	Flow Manufacturing functionality - Material Requirements Planning	U	Flow Manufacturing Functionality is not strategic within SAP S/4HANA.	PP-FLW	https://me.sap.com/notes/2270237
450	Forecast Based Planning	Forecast Based Planning - Material Requirements Planning	U	Forecast based planning (MRP type VV) is not strategic anymore within SAP S/4HANA and should be avoided if possible. Alternative: "Product Independent Requirements" instead of MRP type 'VV', i.e. alternative implies process change (convert forecast to PIRs, execute MRP for PIRs)	PP-MRP MM-CBP-CBP	https://me.sap.com/notes/2268095
451	Graphical Planning Table	Graphical Planning Table - Material Requirements Planning	U	The graphical planning table (also known as graphical planning board or Gantt Chart) will be replaced in a future release.	PP-MES	https://me.sap.com/notes/2268050
452	Logistics Information System	LO-LIS in Production Planning	U	Analytics approached based on Logistics Information System (LO-LIS) is not strategic anymore within SAP S/4HANA. The SAP S/4HANA Analytics approach is based on ODATA and Open CDS (Core Data Services) directly on top of the original database.	PP-IS	https://me.sap.com/notes/2268063
453	Material Identification / Reconciliation (D)	Material Identification / Reconciliation - Basic Production Execution	U	Functionality of Material Identification/Reconciliation is not strategic within SAP S/4HANA.	PP-PI-MIR	https://me.sap.com/notes/2270236
454	Process Instruction Sheets (D)	Process Instruction Sheets - Basic Production Execution	U	Process Instruction Sheets (PI-sheets) and related technologies (electronic work instructions/EWI, Xsteps) are not strategic within SAP S/4HANA.	PP-MES	https://me.sap.com/notes/2268070
455	Process Messages (D)	Process Messages - Basic Production Execution	U	The Process Messages functionality has been adapted within SAP S/4HANA: - replacement of monitoring transactions against modern UI (SAP Fiori/SAP UI5) - improvement on used communication technology (currently t-RFC)	PP-PI-PMA-MSG	https://me.sap.com/notes/2270231
456	Process Operator Cockpits (D)	Process Operator Cockpits - Basic Production Execution	U	Functionality of process operator cockpits (POC) based on SAPWinGUI is not strategic within SAP S/4HANA.	PP-PI-PMA-OPC	https://me.sap.com/notes/2270235
457	Production Campaign (D)	Production Campaign - Basic Production Execution	U	Production Campaign functionality is not strategic within SAP S/4HANA.	PP-PI-PCM	https://me.sap.com/notes/2270216
458	Sales and Operations Planning	Sales and Operations Planning	U	Sales and Operations Planning is replaced by SAP Integrated Business Planning.	PP-MES	https://me.sap.com/notes/2268064
459	Project Reporting	PS-Project Reporting	U	Modernization of Project Structure Reports by support of key-user extensibility (SAP S/4HANA 2021). For Hierarchy and Line Item Reports modernization has been delivered with SAP S/4HANA 2022 FPS01. All modernized functionalities are part of perpetual scope.	PS-IS	https://me.sap.com/notes/2267286
460	Selected Project System Logistics Capabilities	Selected Project System Logistics Capabilities	U	Modernization of project-oriented procurement by support for multiple business partner addresses as part of purchasing integration (SAP S/4HANA 2021). Non-valuated project stock modernized by enhancements in the context of Project Manufacturing Management and Optimization (SAP S/4HANA 2020). Open Catalog interface modernization is delivered with SAP S/4HANA 2022 FPS01.	PS-MAT-PRO	https://me.sap.com/notes/2267384
461	Date Planning Transactions	PS-Date Planning Transactions	U	Modernization of planning transaction delivered with SAP S/4HANA 2022 FPS02.	PS-DAT	https://me.sap.com/notes/2267188
462	Selected project financial planning and control functions	PS-Selected project financial planning and control functions, incl. ECP	U	Modernization of Easy Cost Planning and network planning for projects by support of ACDOCP, the main table for financial planning in SAP S/4HANA (SAP S/4HANA 2022). Further financial planning and control functions have been modernized with SAP S/4HANA 2022 FPS01 and SAP S/4HANA 2023. Refer to SAP note 2267333 and 3265838 for functionalities remaining in compatibility scope.	PS-COS	https://me.sap.com/notes/2267182
463	Production Resources and Tools functions for projects	PS-Production Resources and Tools functions for projects	U	Production Resources and Tools (PRT) for projects are considered as not strategic anymore in SAP S/4HANA	PS	https://me.sap.com/notes/2270262
464	Progress Tracking & Monitoring Dates	PS-Progress Tracking & Monitoring Dates	U	For Progress Tracking a modernized software version with a perpetual use right is available as of S/4HANA release 2022. Monitoring Network Dates (NWTM) remains in compatibility scope, no alternative planned.	PS-PRG-TRC	https://me.sap.com/notes/2267190
465	Project Planning Board, Gantt-Chart, Hierarchy and Network Graphic	Project Planning Board, Gantt-Chart, Hierarchy and Network Graphic	U	Modernization of Project Planning Board (Gantt-Chart) (SAP S/4HANA 2021) and Network Graphic (SAP S/4HANA 2020 FPS1) by additional, alternative visualization via a Fiori-based app. Hierarchy Graphic remains in compatibility scope, no alternative planned.	PS	https://me.sap.com/notes/2270263
466	Project texts (PS texts)	PS-Project texts (PS texts)	U	Renewed project texts are available as an alternative solution (SAP S/4HANA 2021 FPS1).	PS	https://me.sap.com/notes/2270266
467	Claim Management	PS-Claim Management	U	Modernization of Project Claim Management by Read API and Fiori App Project Claim (SAP S/4HANA 2022). All modernized functionalities are part of perpetual scope.	PS-CLM	https://me.sap.com/notes/2267169
468	Selected Business Function Capabilities	PS-Selected Business Function Capabilities	U	Several business function capabilities have been modernized with releases up to SAP S/4HANA 2023 and, hence, are available in perpetual scope. Refer to SAP note 2267333 and 3265838 for functionalities remaining in compatibility scope.	PS	https://me.sap.com/notes/2267333

Part 4: Compatibility Packs based on ERP_Package (core license)

Comp. Pack ID	Component	Subcomponent	Type	Details	Application Component Hierarchy	Relevant Note / Link
469	*deleted*	*deleted*		Several business function capabilities have been modernized with release up to SAP S/4HANA 2023 and, hence, are available in perpetual scope.		
470	Specific archiving transactions within Project System	Specific archiving transactions within Project System	U	Refer to SAP note 2267333 and 3265838 for functionalities remaining in compatibility scope.	PS	https://me.sap.com/notes/2270265
471	*deleted*	*deleted*		./.		
472	Workforce Planning	PS-Workforce Planning	U	Modernization of Workforce Planning with perpetual use rights is available as of SAP S/4HANA 2023.	PS-CRP-WFP	https://me.sap.com/notes/2267189
473	Quality Management Information System (QMIS)	Quality Management Information System (QMIS)	U	Quality Management Information System (QMIS) not strategic anymore within SAP S/4HANA and is replaced by Embedded Analytics / Fiori screens in QM.	QM-QC-IS	https://me.sap.com/notes/2270193
474	Logistics Execution (D)	Transportation (LE-TRA)	U	The Logistics Execution Transportation (LE-TRA) is not strategic anymore within SAP S/4HANA.	LE-TRA	https://me.sap.com/notes/2270199
475	Logistics Execution	Direct Store Delivery (LE-DSD)	U	DSD (Direct Store Delivery) is used to plan and execute shipments especially for small shops.	LE-DSD	https://me.sap.com/notes/2273317
476	Logistics Execution	Warehouse Management (LE-WM)	U	The Warehouse Management (LE-WM) is not strategic anymore within SAP S/4HANA.	LE-WM	https://me.sap.com/notes/2270211
477	*deleted*	*deleted*		./.		
478	Vendor Rebate Arrangements	MM-Subsequent Settlement - Vendor Rebate Arrangements	U	In SAP S/4HANA, the Subsequent Settlement (MM-PUR-VM-SET) application is replaced by Settlement Management. For this reason, the functional scope of subsequent settlement has been restricted, that is, in SAP S/4HANA, it is no longer possible to create new rebate arrangements (transaction MEB1) or extend existing rebate arrangements (transactions MEBV / MEB7 / MEBH).	MM-PUR-VM-SET	https://me.sap.com/notes/2267415
479	SD Rebate Processing	SD Rebate Processing	U	In general, SD Rebate Processing is no longer supported in S/4HANA and replaced by Settlement Management. It is no longer possible to create new rebate arrangements or extend existing rebate arrangements.	SD-BIL-RB	https://me.sap.com/notes/2267377
480	Vendor evaluation with LIS	Vendor evaluation with LIS	U	Current vendor evaluation based on Logistics Information System (LIS) is still available with SAP S/4HANA but not considered as strategic any longer.	MM-PUR-GF-LIS	https://me.sap.com/notes/2267414
481	SD Analytics based on Logistics Information System (LO-LIS)	SD Analytics based on Logistics Information System (LO-LIS)	U	Analytics based on Logistics Information System (LO-LIS) is not strategic anymore within SAP S/4HANA. The SAP S/4HANA Analytics approach is based on ODATA and Open CDS (Core Data Services) directly on top of the original database.	SD-IS SD-HBA-VDM SD-HBA-SOF	https://me.sap.com/notes/2267348

(D) This usage right has been extended until the end of 2030. The usage right for all other compatibility pack items remains unchanged, expiring at the end of 2025.

Parts 2 and 3 of the compatibility scope matrix exclusively apply to the SAP S/4HANA releases 1503/1605/1610 and are therefore irrelevant for most installations. They are also not covered by the Readiness Check, the EarlyWatchAlert report, and some of the detail documentation.

(A) SAP S/4HANA Enterprise Management, SAP S/4HANA Enterprise Management for ERP, or SAP S/4HANA Foundation-Promotion is a prerequisite of any SAP S/4HANA Compatibility Pack Solution. Provided Licensee has a license for one of the prerequisites set forth in the preceding sentence, and if Licensee also has a license to a Classical Solution shown under the Classical Solutions column above, they shall automatically also have a license for the corresponding compatibility pack solution shown in the SAP S/4HANA Compatibility Pack Solutions column above, in accordance with the terms of their Agreement referencing this Matrix.

(B) Compatibility Pack Types:

L = Limited. Limited CPs may only be used with releases 1503 and 1605 of SAP S/4HANA Enterprise Management, SAP S/4HANA Enterprise Management for ERP, or SAP S/4HANA Foundation-Promotion.

V = Vistex. Vistex CPs may only be used on S/4HANA Installations using release 1610 S/4HANA Enterprise Management, S/4HANA Enterprise Management for ERP or S/4HANA Foundation Promotion. SAP will not provide support for this type of Compatibility Pack after the end of maintenance for SAP S/4HANA release 1610 / end of 2021.
